DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 fails to recite sufficient structural elements and interconnection of the elements to positively position and define how an arcuate plate is in "intimate" contact. It is unclear as to whether or not the applicant is claiming a combination including a folding table and a wheel chair since a table is positively claimed with specific interrelationship (size dependent on the spacing between the armrests of a wheelchair), such wheelchair not positively claimed making the metes and bounds unclear to a potential infringer. Clarification and correction are required.

Allowable Subject Matter

Claims 1-2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Frank, Arfaras et al, Minati, Harris, Miller, Chao, D'Annunzio et al teach structure similar to applicant's.
